Academy for Careers in Technology - by Freshworks 08/2025 - Current
Responsibilities / Learning:

- Front-End Development / Back-End Development / Full-Stack Web Development

Skills

- Front-End Skills: HTML, CSS, Bootstrap
- Programming Language: JavaScript, Python
- Database: SQL
- Tools: VS Code, GitHub
- MS Office: Word, PowerPoint, Excel
- Teamwork
- Problem Solving
- Emotional Agility
- Adaptability

Projects / Practical Work

Garden E-Marketing (<https://gajulabeulah.github.io/E-Gardening-Fnial-Project/>)

- Developed a full-stack web application providing plant information, gardening services, and online purchasing.
Enabled users to search plant details, view care instructions, and explore gardening solutions through a user-friendly interface.
Technologies: HTML, CSS, JavaScript, Python
Tools: VS Code, MySQL Workbench

Hygiene Restaurant & PG Finder Website

- Developed a front-end web application to help users find hygienic PG accommodations and restaurants. Implemented search filters such as price, location, and ratings.
Designed a clean and user-friendly interface for easy navigation and effective data display.
Planned backend integration for data management, authentication, booking, and reviews.
Technology: HTML, CSS, JavaScript
Tools: VS Code

Portfolio Website (https://madurivinay123-netizen.github.io/portfolio_with_AI/)

- Created a personal portfolio website to showcase my full-stack development projects, including the Garden E-Marketing platform. Focused on responsive design, easy navigation, and clear presentation of

projects and skills.
Technologies used: HTML, CSS, JavaScript
Tools: Copilot, VS Code

Certifications
